

Fuck You, Read Through This Whole Thing In Comic Sans

I Killed A Bunch Of Niggers And Faggots (And That's A Good Thing!)

Palatable title: A White Boy Summer To Remember

>inb4 tl;dr Fuck you, read the whole thing or skip to the Q&A.

"When there's nothing left but the fire in my chest and the air that fills my lungs, I'll hold my tears and trade my years for a glimpse at Kingdom Come. On the other side of misery, there's a world we long to see. The strife we share will take us there to relief and sovereignty.

Oh, by God, we'll have our home again. By God, we'll have our home. By blood or sweat, we'll get there yet. By God, we'll have our home.

In our own towns we're foreigners now, our names are spat and cursed. The headlines smack of another attack, not the last and not the worst. Oh my fathers, they look down on me, I wonder what they feel, to see their noble sons driven down beneath a coward's heel.

Oh, by God, we'll have our home again. By God, we'll have our home. By blood or sweat, we'll get there yet. By God, we'll have our home.

The road is dark, the way is lost, and my eyes, they strain to see. I've struggled forth to find a friend to light the way for me. Oh brothers, can you hear my voice, or am I all alone? If there's no fire to light my way, by God, I'll start my own.

*Oh, by God, we'll have our home again. By God, we'll have our home. By blood or sweat, we'll get there yet. **By God, we'll have our home.**"*

TND: Total Nigger Death. Nomenclature as recent as the idea's popularity. While some fringe historical movements understood the nigger as a wild beast in need of culling, it is only in very recent times that the White Man has realized his differences with the nigger irreconcilable, and a sizable portion (more sizable than nigger-lovers care to admit) has decided that the nigger must go. Each race of human forced to cohabitate with the nigger sees the horrors it wreaks upon their countries.

Despite this, no meaningful action has been taken. The fear is that a lack of de jure organization among proponents of Total Nigger Death will lead to fruitless "lone-wolf" attacks. Doubtlessly, my actions will be decried as such. However, one can only be a "lone-wolf" if no other wolves follow behind them. To all who see the

clear and present havoc let loose upon Western society and values, consider this your call to arms. As Paul Revere rode alone to deliver his warning that the British were coming, I fight alone to deliver this warning: the nigger is already here; and if you are to live free of its savagery, then you must take up arms and put the nigger down like the animal it is.

If you are in doubt, simply look at me. If somebody like myself can take down as many niggers as I do while out-of-shape and with no knowledge of culling nigger herds, relying solely on the hope of inspiring a better tomorrow; imagine what somebody who is physically fit and versed in combat could do. Imagine what many could do. Imagine what an entire nation of nigger killers could do. The journey of a thousand miles begins with a single step. I have taken that first step. I urge those reading to take the rest.

Ever since the nigger has been granted the same rights as the White Man, it has brought only destruction. Destruction from the micro scale, in which the nigger destroys a family; either through killing a person over a token sum of money or simply because the nigger finds joy in killing, or by abandoning the offspring the nigger chose to create. Destruction at a larger scale, in which the nigger destroys neighborhoods through its antics (see: footage of niggers firing guns in the air outside their apartments with the express purpose of lowering their property values). Destruction at the macro scale, in which the nigger sees one of its own justly killed and retaliates unjustly with its most dangerous tool: mob mentality. Riled up by false reports from the mainstream media regarding the aforementioned dead nigger (see: Trayvon Martin [pulled a gun on a police officer], Michael Brown [pulled a gun on a police officer], countless more [pulled guns on police officers], and most notably George Floyd [the rare exception, as this nigger's just desserts came by ingesting a lethal dose of fentanyl before he could pull a gun on a police officer]), thousands of niggers take to the streets and wreak absolute havoc. The nigger will burn cities to the ground over one of their own losing a fight that it started. When given the opportunity, the nigger will burn its country when given enough numbers and enough power. The nigger destroyed Rhodesia when Ian Smith finally caved into allowing minority rule. The nigger destroyed its own countries wholly through their own incompetence when given independence by the White colonizers who civilized them. Even as I write this, the nigger is openly genociding the White Man in South Africa. The longer we wait, the stronger the nigger gets. We cannot afford to wait any longer. We must put the nigger down now, as you would with a rabid animal.

Furthermore, the nigger singlehandedly inflates all crime statistics in the United States. Most have undoubtedly heard the classic "13/50" line at some point. For the nigger-lovers and fence-sitters who have not, "13/50" refers to a damning, indisputable fact about the nigger. The nigger makes up thirteen percent of the population of the United States, and yet it is responsible for more than fifty percent of all violent crimes (E.G.: murder, rape, assault, etc.) Even worse, the vast majority of this statistic comes from nigger males. Thus, a mere seven percent of the population is responsible for half of the violence we see while the other six percent perpetuate it through their terrible parenting.

Nigger-lovers attempt to argue that this is simply a "socioeconomic" factor; a meaningless term invented by nigger-lovers to conceal the fact that niggers are inherently violent. Regardless, I will indulge these nigger-lovers for the sake of those on the fence. Certainly poverty and the destruction of the nuclear family have contributed to the nigger's behavior; but why is it that only the nigger remains poor and is raised by single parents across generations while other races either break this cycle within a handful of generations or simply skip over the crime? Perhaps "socioeconomics" would be worthy of consideration if the nigger stuck to crimes such as victimless drug use or petty theft of food and clothing (as poor white people do), but this is not the case.

To emphasize this point, the nigger is clinically proven to lack the levels of oxytocin found in the White Man. Oxytocin is the chemical responsible for feelings of empathy. Put simply, niggers do not have the capacity for empathy that other races do. This is most evident in courtroom footage with nigger teenagers who have committed heinous crimes being asked by the judge how they would feel if such an act were done to them, to which the nigger replies "but it didn't happen to me, I don't understand the question." To see this for yourself, approach the nearest nigger (armed, in case the nigger becomes violent), and ask it: "How would you feel if you did not have breakfast this morning?" A simple hypothetical with an answer a child could provide, yet the nigger will invariably respond with, "But I did have breakfast this morning."

Being written by psychiatrists, the article frames this as poor widdle nigger women getting hurt easier by heckin' boo-boos than evil whitey. I would encourage the reader to do their own research as the facts are, indeed, out there; however, the information is often intentionally buried. Memory-holed, if you will. For some (((strange, inexplicable reason))) there seems to be a concerted effort to hide the

nigger's crimes. Ask yourself: "Why is this? Why does every media outlet, every search engine, every hub of information, wish to conceal these facts from me?"

The nigger, as stated above, takes joy in killing. The nigger takes joy in hurting others. A nigger will assault a stranger on the street (typically a white victim), and when the nigger begins to lose the fight that it started, every surrounding nigger will more likely than not join in. This is a micro-scale version of nigger mob mentality when they destroy cities. Even when the nigger does not seek violence, its inherent lack of empathy leads it to be a public nuisance at all times. The nigger will equip brass knuckles and sucker punch strangers in the back of the head. A nigger will, more likely than not, blast its terrible nigger music on public transportation, verbally harass strangers, and steal anything not nailed down if given the chance. The nigger is an annoyance at its absolute best, and a mob of violent gorillas thousands-strong at its worst. The nigger hits its worst frequently.

In a proper society, the nigger would have been exterminated or deported. John Wilkes Booth was a misguided fool who jumped the gun and ruined the chance to be rid of the nigger for good. By killing Abraham Lincoln, Booth empowered the nigger-loving congress to axe Lincoln's plan to deport every nigger to Liberia where they would eventually perish without the White Man's charity. The Confederate States of America were a rogue band of nigger-loving Democrat Jews who would prefer keeping hundreds of thousands of violent gorillas around to spending a single penny on industrializing. (That being said they're MY nigger-loving Democrat Jews. The South will rise again when this failed state balkanizes and gray is a cooler uniform color than blue. The Yeoman has SQL. The y*nkee has cold, brutal machinery.)

Speaking of the jew, proponents of Total Nigger Death often name the jew as the root cause of societal issues both in the West and around the world. Of this, I am not sure. While the evidence points strongly towards the existence of a cabal of elite jews conspiring (seemingly telepathically) to destabilize the nations of the world so that they can make a quick buck in the aftermath, the idea seems far-fetched, and Occam's Razor leads me to believe that there is no centralization among those behind the West's decay. I encourage the reader to investigate the world's most powerful people and form their own conclusions on whether their religions and ethnicities correlate and causate (hint: look into how many major players in media companies and big tech are jews), or whether this is mere coincidence. As a final point, ask yourself: why is it that Adolf Hitler's speeches are shown so often on television, and yet never given subtitles? If the man were

such a villain, there would be no reason to censor his words. Perhaps coincidence, perhaps an attempt to conceal arguments against the Jew crafted more convincingly than any others, especially mine.

I, personally, sit on the fence. I simply do not know the cause of the West's moral and societal decay and cannot draw a complete verdict beyond a reasonable doubt. A civilized society does not issue death sentences if there is any reasonable doubt to a verdict, and as a civilized man I am bound by the same rules. The only cause that I can be certain of is the "Uniparty" in charge of the United States' government. The two-party system is a mere dog-and-pony-show to keep us Proles in line. Both parties, with very few exceptions (E.G: the rare principled republicans who refuse to toe the Uniparty line and the state politicians who mysteriously die within a week of investigating the Uniparty's grand involvement in global sex trafficking), align on nearly every agenda. Both parties voted to enact the PATRIOT Act. Both parties voted to send Americans to die in the Eternal Sandpits. Both parties voted to lock down the country and enforce mandatory vaccinations among government workers (except for the politicians themselves, of course). Both parties regularly vote to send American tax dollars to nearly every country on Earth as financial aid, yet living conditions in these countries that receive our money never improve. Both parties voted to give themselves pay raises on the taxpayers' dime.

Both parties consist of child rapists. They fly to their private islands or drive their limousines to their shell companies, where they rape abducted children in their private underground cunnidomes. Do you think Missing 411 cases are primarily children just because kids are dumb? These kids will walk off for less than a hundred yards and they're never seen again. There may be men paid by the government stalking forests, beaches, and streets, taking children as soon as they're caught alone. These children, be they trafficked from Haiti and Puerto Rico, nabbed at ICE internment facilities (this is not a critique of ICE as they are not behind the nabbing, their only fault is not digging a big moat full of alligators to keep out the latinx), or abducted from the aforementioned forests, beaches, and streets by taxpayer-funded professional cunny hunters all meet horrible fates. The lucky ones are killed, their dead bodies mutilated in sadistic rituals. Their brains harvested for adrenochrome as modern-day snake-oil to convince these psychopaths that they will live forever.

Remember Anthony Weiner's laptop? Of course not. It was memory-holed quicker than a nigger-perpetrated mass shooting. It contained irrefutable photo and video

evidence of an unlucky one. A thirteen-year-old White girl, severely beaten. Her face covered in stitches from where it had been sliced. A person whose name escapes me (and you can't exactly look that information up) wearing the girl's face as a mask. New York State politicians died investigating this. New York City police officers who saw the footage were found dead. Some by suicide, some by "suicide". Its contents were buried, never brought up again. To this day, the laptop is unaccounted for. The even unluckier ones are sent to the aforementioned cunnydomes where they are beaten, raped, and tortured by the "elite" of our society, the Inner Party, if you will, for fun. These are children suffering such abhorrent fates, some too young to even be in elementary school. The Inner Party are more psychopathic than the nigger. At least the nigger lacks the brainpower to grasp that what it is doing is wrong. The Inner Party simply does not care. These people have been proven beyond a reasonable doubt guilty of the most heinous crimes in recent history, and I fear they break their own records frequently. The Inner Party (think of them as the (((Inner Party))) if it's enough to get you off your ass and do something) needs to be brought to justice. These criminals believe themselves above the law; but they have names, families, and addresses. They are only above the laws that they, themselves, have written. They are not invincible. They can be killed. They must be killed.

Returning to more palatable ideas (more palatable merely because the implications are less disquieting): The two parties differ only on token issues with little bearing on the average American's daily life; such as taxes (your taxes are going up no matter what) and gun laws (the Uniparty is slowly but surely coming for your guns anyway). These differences are exclusively talking points. Both parties will raise your taxes and both parties will infringe upon your natural right to keep and bear arms. The Uniparty is a major cause for the symptoms of societal decay that Americans are witnessing, yet I cannot shake the feeling that there is something more than money and cunny driving the Uniparty into tricking us to believe that politicians differ on issues and, consequently, that our votes for them matter. Democracy has failed. Kill your politicians. They have failed you. They have failed you because they have never had your interests as a constituent in mind.

While I do not know the single root cause for the advanced societal decay present among every Western nation; I do, however, know the deadliest symptoms: the nigger and the faggot. When the Supreme Court ruled gay marriage to be legal, I first believed it to be a good thing. I did not believe in the "slippery slope" proposed by opponents to the ruling. In hindsight, this slippery slope proved infalsifiable. The faggots insisted they only wanted to ass-fuck each other in the

privacy of their own homes. Then the faggots insisted they only wanted to marry each other and celebrate by ass-fucking each other in the privacy of their own homes. Then the faggots became trannies and insisted they only wanted to play dress-up as the wrong gender. Then the trannies insisted they only wanted you to entertain their delusions while they play dress-up as the wrong gender. Then the trannies came for our children. We let the faggots and the trannies warp our children into their fetish toys. We let the faggots and the trannies touch our children. We have failed, and we must make this right. The faggot and the tranny deserve extermination just as much as the nigger. The nigger's methods are brute, the faggot's methods are insidious. They will both fall by my hand, and the day will come when the civilized people of the world band together to follow my actions. The Day Of The Rope is coming, and my one regret is not living to see it. I may not see that day when we finally take our homes back, but I take solace in helping to ignite the powder keg that will cause it.

On other races; the Asian Man, the arab, and the latinx (the jew sits in a superpositional quantum state of White and non-white depending on which is more convenient for him at any given time): The Asian Man is roughly on-par with the White Man. The Asian Man tends to have a higher IQ (by a few points) on average, but the White Man tends to be more creative with his intellect. The arab and the latinx, on the other hand, are by no means peers to the White Man or Asian Man.

Only the White Man and the Asian Man have made civilizations that stand to this day. The English have existed in some form or fashion for nearly a thousand years, the French even longer. The Roman Empire survived for over 1500 years, arguably surviving to this day as the Vatican City. The Chinese dynasties have accomplished the same, though in a much rockier, much, much bloodier way. The Japanese as a nation have existed in some form or fashion since the first millennium, though normally very fractured up until contact with the White Man. The Huns, barbarians that they were, made a formidable match for even the Roman Empire, though their existence was short-lived. The Mongols nearly conquered the White Man prior to the death of Genghis, making the Asian Man the only race to have overtaken the White Man militarily at any period in history; a respectable people indeed.

The Asian Man and the White Man have been neck-and-neck in regards to culture, military, and science until the peak of colonialism in the 19th century. The Chinese were caught at their weakest, the Japanese were isolated on their island with little resources to work with and only the overseas holding of Korea to their name. The White Man had (vastly) taken the lead scientifically and militarily and leveraged

this power against the Asian Man, leading to the birth of modern Asia. China collapsed into civil war yet again; but a clear winner eventually came out, and that winner has not collapsed into a horrifically bloody civil war (yet). Japan accepted guns into their military with open arms (something the nigger never could), and eventually found itself in the empire business. The Empire of Japan even defeated the Russian Empire, a western power. Japan's mistake was arriving to the game 200 years late. Had there been an Empire of Japan capable of bloodying Russia's nose at the same time as the European powers were solidifying their own holdings, the acts committed by the Japanese during their empire-building may have been overlooked.

To this day, every East Asian country save the obvious exception is thriving in at least one aspect. Communist China is a soft superpower and seen as a near-peer threat to the West despite its severely overhyped military capabilities. (Note: The Han Chinaman is less human than the other East Asian races. Han Chinese eat dogs. They torture the dogs first because they believe it enhances the flavor of the meat. They manage the strange feat of having IQs in the one-hundred range, yet no capability to question authority. The Han Chinaman is a slave race; their current master is the CCP, though I digress.) South Korea is one of the world's premier economies, with many corporations being household names in the West. If not for its northern neighbor (the aforementioned exception), South Korea could very well be on par with any Western nation. Modern Japan is a Western country in the East. It has a homogeneous population, a strong military, and an economy to rival any other. It remains the only Asian nation with permanent G7 membership, even beating out the White nation of Australia. H-Man was right: East Asians are honorary Whites.

The arab is a distant runner-up to the White Man and the Asian Man. While the arab managed to take some meager European holdings, he never truly threatened the White Man. The arab's greatest accomplishment was finally defeating the Eastern Roman Empire, the final bastion of White civilization in the Middle East. The Ottoman Empire at its peak held roughly half of the Roman Empire's land by volume, though much of this land was desert by this time. Like all empires, it was eventually toppled by the White Man. The arab's biggest mistake was failing to evolve past the dated parts of his religion. The Quran preaches words just as terrible as the Torah and the Bible, but Jews and Christians have mostly left those terrible parts behind.

Israel does not use gentiles as slave labor (officially anyway), and Vatican City does

not allow its residents to sell their children into slavery in Northern Italy. Israel is the only Jewish theocracy (and very loosely so at that), and Vatican City is the only remaining Christian theocracy. Israel has a secular government and integrates arabs into their society. Vatican City is (obviously) a single city, one that has held no real power since the middle ages and now serves only as a means of keeping all Catholics on the same page (before the latinx pope's decisions to worship the nigger and the faggot before xheir own god, anyway). On the other hand, the Middle East is home to many Islamic theocracies; many of these theocracies enforcing strict and literal enforcement of the Quran's words. A petty thief is punished with the loss of a hand. A woman who is raped and cannot provide four men to testify on her behalf is stoned to death for promiscuity. Faggots are thrown from rooftops (OK that one's a good idea maybe we should be taking notes). You know these policies as Sharia Law. Countries such as Iran, Saudi Arabia, Oman, Qatar, and the UAE are prime examples. If it were not for their oil reserves, these countries would have been left to fight over their lifeless sandpits while the White Man kept his distance. The arab's numbers in America remain small, and as such they pose no real imminent threat. They can be dealt with later. In Europe, the situation is reversed. Hordes of arabs are still flooding into European nations and wreaking havoc as the nigger does in America. Sweden is hastily reversing its "progressive" policies from the 1970s, German far-right parties are at their most popular since H-Man, and as I compose this document the White Man is in open armed conflict with arab hordes in the streets of France. The arab is to Europe as the nigger is to America. The White Man's fight is the same on both sides of the Atlantic; the only difference is exactly just how dark the enemy's skin color is.

The latinx, meanwhile, came into existence only because the Spanish (being the black sheep of European Empires [we don't talk about Scotland]) could not resist the urge to rape as many red women as possible. That being said, who could blame them? After spending months at sea on a boat with nothing but a bunch of unwashed, sweaty men, you would be inclined to rape the first woman you saw too (just ask the garrison at Okinawa je.j), especially considering that this was the 1500s and the only means of entertainment available to the average settler involved mogging heya-hoya "empires" and raping red women.

The latinx inherited vast holdings in sparse, undeveloped territory, making xheir empires look larger on paper. Brazil is in a perpetual cold civil war between the nigger and the latinx. Argentina is a nation of latinx obsessed with insisting that xhey are, in fact, white. Mexico was one of the largest empires on earth until it

was trounced by the 1830s US Army (an army that could have buckled to even Canada at the time). Every Central American nation was subjugated by the White Man even after being given independence simply because these nations could not for the life of xhemselves put together a functioning society. Colombia literally only exists to fuel the nose of your stock broker. Venezuela had the perfect opportunity to become an oil exporting superpower, the chance to make Caracas the Dubai of the West, and blew it.

Upon gaining independence (because Spain and Portugal got bored), all of South America regularly held continent-wide Fortnite matches (guest starring Britain and Spain sometimes just for funsies) over a bunch of rocks covered in bird shit and every time nobody won. These bird-shit royales regularly involved comically evil war crimes, the complete collapse of latinx empires, and only Chile and Brazil ever getting the closest to a Dookie Royale. Notably, the Paraguayan Bird-Shit Royale led to five hundred thousand dead across three countries with a combined population of less than ten million. It is believed that up to 90% of Paraguayan males fucking died and nothing of value was gained. Latinx history is simply funny. The modern latinx commits felony breaking-and-entering against America's borders just to either mule the fun drugs like blow and molly into the country, or work for literal pennies (this somehow being enough money to live like a monarch back in xheir home country) only to send all of it back to xheir abuelitx and xer 50 children. While the latinx has frequent bouts of nigger-like behavior such as tax-dodging, drug peddling, and brutal murder; xheir antics are funny, simply put, and I wouldn't mind keeping xhem around in little cages as a race of court jesters where xhey can't cause harm to the White Man. The latinx may very well be proof of God, because only a divine being would create a literal joke race.

A final note on the races: the nigger burns cities when enraged. The arab and the latinx burn countries when enraged. The White Man and the Asian Man burn continents when enraged.

Q&A For Nigger Lovers:

- Q: "You hate faggots and trannies, why do you say 'latinx'?"

A: Xhey literally prefer it

- Q: "Killing 'people' is so heartless, I can't believe you could do this! You're so evil!"

A: Just for that, I'm raping someone too (not a nigger though I heard

they have cooties). For the record, I think rape is worse than murder.

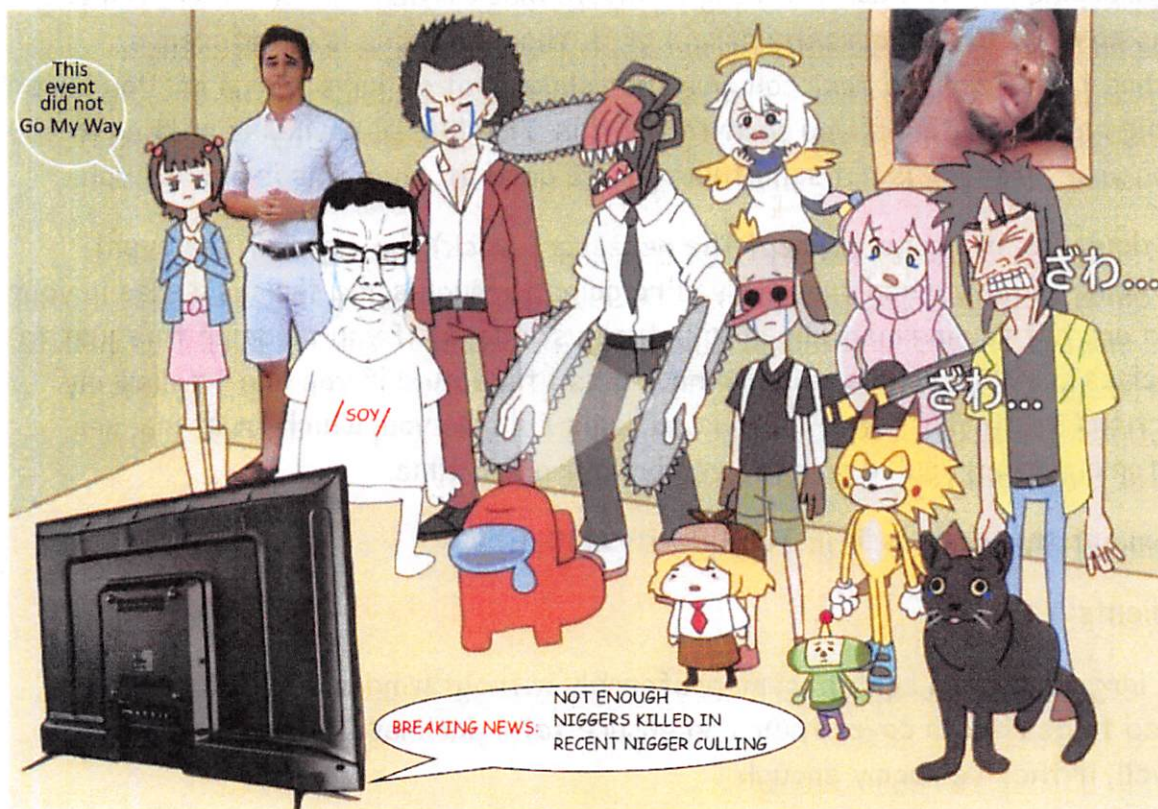

Now you talking-head nigger-lover pundits have to either defend rape or agree with a man who kills niggers. Silence is violence btw so if you say nothing you do both. You're lucky I didn't buy the flamethrower.

Q: "Why not make a Q&A section for le wholesome POCerinos?"

A: Niggers can't read.

- Q: "lol u only killed 2, 10, 100 niggers u stink!"

A: Engineer_negativevocalization12.wav

- Q: "You play a lot of shooter games. Surely that's proof vidya makes people better shooters!"

A: Check my K/D for evidence to the contrary

- Q: "Recommend me a book."

A: Perform the following ritual to the letter and it will tell you secrets that only true archaic Aryan Trap\$tarZ know:

Please Don't Actually Try This, aka The Three Aryans

(Audiobook included)

What I'm about to share with you today is one of the many relatively safe ways in which you can access (not quite enter) a place called "Agartha", and its effectiveness depends on how seriously you take me; your mileage may vary, refer to title.

I won't tell you that you shouldn't be afraid of Agartha; chances are you've already seen it after all, and merely thought it was just a "conspiracy theory about Hitler escaping into the earth through a matte black flying saucer". I will tell you there is no need to be ignorantly afraid of it, though. There is a difference. Ignorance fuels fear and fear can give that place a lot of juice to run on. You have to be big on preparation if you want to try this. It's like skydiving: if getting it right on your first try is not something you're good at, then this is not for you.

If you do drugs or alcohol (except the necessary wock) the night of the event, you're going to have a bad time. If you're going through some serious issues in your life and are not feeling mentally or spiritually stable, or if you're doing this just to see if elves are real, you're going to have a bad time. And if you don't follow my instructions (particularly the multiple backups I'll give you, which trust me, are there for a reason) you're going to really have a bad time.

The name of this game is THE THREE ARYANS, btw.

Ingredients:

A very large empty and quiet room, preferably without windows. If windows exist, you need to be able to cover them and ensure total darkness. Basements usually work well, if they're roomy enough.

A pack of candles (you'll only use 1, if all goes well), and a lighter.

A bucket of water and a mug.

A fan.

Two large mirrors (like the one on your dresser. Don't worry, they won't be harmed. Or if they are, it'd be the least of your concerns).

Three chairs.

An alarm clock.

An active cell phone (don't forget to charge the goddamn battery!)

A loved one willing to follow rules and go along with all this madness.

A small toy or dear object from your childhood. This is your white power object.

A champagne flute, the fancier the better.

A styrofoam cup with enough wocky slush to fill the champagne flute.

Setup:

Start setup at around 11 PM. Place one chair in the center of the room, facing north (this is important). Place the other two chairs exactly to the left and right, facing your throne. The distance between your throne and that of your knife-ear and brown-eyes should be about the length of your arm to each side, more or less. Place the two large mirrors on the knife-ear and brown-eyes chairs left and right of you, facing you (and each other). Try your best to have them stand at a 90 degree angle (or else you may get more or less than three aryan). If you sit on your throne facing straight ahead (north), you should be able to perceive your own reflection in each of the two mirrors without actually having to turn your head nor your eyes to do so. If you see your own reflection in the corner of your eye, just barely there, then you've done it right.

Place the bucket of water and the mug in front of you, just barely out of reach.

Place the champagne flute on the table to your right and within reach. Place the wock right next to it; the direction isn't important.

Place the fan behind you, turn it on. Don't set it to maximum power, medium or low is usually enough. Leave it on.

Turn off the lights, leave the door open and go to your bedroom.

Set the candles by the side of the bed, next to a lighter, your alarm clock and your cellphone (leave it charging).

Set your alarm clock for 4:17 AM.

Turn off the lights and sleep while holding your white power object, get some rest.

Showtime: Wake up at 4:17 AM with your alarm clock. Turn it off, but don't turn

on the light. You have exactly three minutes to light your candle, grab your cellphone, and make your way to the dark room to sit in your throne. You should be seated by 4:20 AM. Don't forget your white power object! Check for potential red flags: if your cellphone didn't charge for whatever reason, abort the mission. If the alarm didn't go off exactly at 4:17 AM, abort the mission. If you find the dark room door closed (remember, you left it open) abort the mission. If the fan is turned off (you left it on) abort the mission.

(Side note: if you have to abort the mission due to any of the above, leave the house with your loved one. Go to a hotel or something. There's no need to run; you have time to grab a jacket and your keys and what not, but leave. After 6 AM the coast should be clear.)

If all is going as planned, you can proceed and take your throne. DO NOT look directly at either of the two mirrors besides you. DO NOT let the candle go out. The fan is behind you. You must protect the candle with your body, which is standing in between (there's a reason for this; as you'll soon see).

Pour the wocky slush into the champagne flute. Toss the styrofoam behind your right shoulder, NOT YOUR LEFT, being careful not to move the fan and blow out the candle. Chug the wocky slush in one motion. If you cannot consume ALL of the wocky slush in one chug, abort the mission. Nothing bad will happen, you've just failed to initiate the Aryan squirm sesh. Try again another night until you succeed.

Look straight ahead, at the darkness. Not at the candle, not at the mirrors, just straight ahead. Eagle-eyed readers surely noticed I didn't say during setup which chair was the knife-ear and which chair was the brown-eyes. That's because it's your job to find out. And from their point of view, you are either their knife-ear or their brown-eyes, too. Hence three Aryans.

I won't spoil what happens next. Suffice to say, you won't be alone and if you have questions, you'll get answers. Sometimes in the form of new questions, but hey, that's the story of the white race, eh? Just stay put and try not to move. Again, DO NOT look directly at the mirrors, nor the candle. Just straight ahead, trust me. Don't chicken out either; you need to wait until 5:21. By 5:21 it's all over. It's okay to tremble a little bit, just try not to. Not because it affects the ritual or anything, it's just a pussy thing to do during an Aryan squirm sesh.

Did I mention not to let the candle go out? That's what the fan is for. You're protecting the candle with your body, but if your body were to be suddenly moved then the fan would turn off the candle. That's backup number 1. Your loved one is

backup number 2: at 5:21 she has to come in the room and call your name. If that won't work, she has to call your cellphone. If that won't work, she has the glass of water and the bucket. She can't touch you though -that's a nigger mistake. Backup number 3 is your item of white power, the toy, or locket or whatever object of strength you brought along for the ride. It'll show you the way if SHTF and TND is commenced.

Multiple back ups. You gotta be like a boy scout if you do these things. If you half-ass it, half-ass it all the way so that it won't work. Worst you can do is take it seriously enough for it to work and not seriously enough to be prepared for the consequences.

If in doubt, refer to title.

Q&A For Fence Sitters:

- Q: "Do you think being undecided is a bad thing?"

A: Not at all. A smart man takes time to make decisions, looking over all of the evidence available to him. I can only recommend that you set emotions aside and consider your interactions with niggers. If you interact with niggers regularly; the conclusion you will come to, if decided rationally, will be similar to mine. If you do not interact with niggers regularly, try to keep it that way and consider yourself lucky.

- "Are you religious?"

A: I don't know. I imagine I'll find out immediately after my brain matter discovers the power of a 10mm round. I will update you if I can but circumstances will likely prevent me from doing so.

Q: "Why drive so far? Couldn't you have just put down the niggers infesting Jacksonville?"

A: Are you crazy? Any asshole could be a good guy with a gun and I would have no idea. Constitutional carry is great for the law-abiding, but scary for the criminal. My actions are just, but they are not yet accepted. Taking the time to drive to a state with stricter gun laws lowers the chance of the White people I ignore shooting me in the back.

- Q: "I'm a POC but I think ALGBTQMAP+ have been going a little too far as of recently. Should I be hanged by the neck until dead too?"

A: Sorry but it's "Total Nigger Death", not "Partial Nigger Death"

- Q: "You didn't mention indigenous peoples; what do you think of them?"

A: I have met one (1) genuine, unironic, full-blooded heya-hoya injun in my entire life. She absolutely wanted to get colonized by my BWC. I was in her dorm talking to the chick I was actually interested in (turns out she liked me too but was too scared to say anything) and little miss heya-hoya gave me a nip-slip. Being the gentleman that I am, I took but a glance and looked up at her eyes. She could've been blushing but when your skin is already red it's hard to tell. The next night we threw a big party in the same dorm (height of the big coof too lul) and she drunkenly confessed her love to me. The only injun I've ever met was a chronic drinker with a colonizer fetish and she kept all of her possessions in a box under her bunk (a reservation). Stereotypes exist for a reason.

- Q: "Erm what the spruce u killed an cop"

A: Oops. If I kill any cops they shot first.
Engineer_negativevocalization01.wav

- Q: "Do you really think people will follow you?"

A: One way or another. Either the ones itching for TND will use this as their chance to partake in the act, my words will convince TND enthusiasts to get off their asses and do what needs to be done, or there will be another me further down the line. If I am unsuccessful in spurring on a revolt of the White Man, expect more just like me. I am the rare zoomer willing to articulate myself, so expect future nigger killers to produce manifestos comprised entirely of indecipherable inside jokes and intentionally schizoid ramblings indistinguishable from those of a real schizophrenic. Expect nigger killers who produce no manifesto at all and instead perpetrate TND simply because nobody else will. When I am done, you can never be sure if a pile of dead

niggers courtesy of a White Man came from a schizo, a casual racist, a competitive racist perpetrating TND, or an edgelord targeting the flavor of the month. No matter what happens, there will be more of me. Expect more of me. **By God, we'll have our home.**

- Q: "Recommend me a book."

A: The most recent version of FBI statistics on race and violent crime, cross-reference the demographic profiles of the United States Census from 1960 to 2020, and finally cross-reference Nineteen-Eighty-Four, Brave New World, and your experiences in modern life. Note how Orwell correctly predicted Newspeak (ebonics), memory-holing (most notably Common Core and CRT), the Spies (think of all the kids who sold their parents out to the feds after Jan. 6), mass-surveillance, and the creation of a prole class. (The one thing Orwell got wrong was believing that pornstars could be unpersoned and none of the proles would question it. Take away a prole's porn and you have a revolution of 90% of the population on your hands) Next, note how Huxley predicted mass-proliferation of antidepressants, injuns being annoying even to this very day, and the government's usage of mind-altering chemicals for mind-control purposes. Huxley's mistake was believing that the government would completely rule out violence as a means of population suppression. We find ourselves living out the worst parts of both dystopias. Orwell predicted a boot stomping an unwilling human face. Huxley predicted the pacification of a willing public. Instead, our society consists of a boot stomping on a willing human face. We are constantly monitored and we welcome it. We buy devices that make it easier for the government to monitor us knowing full well that they are doing so. Someone, somewhere, knows every single thing you do at every single moment of the day. You likely feel disgusted after hearing that a White Man went on a killing spree. Use that disgust. Turn it against the real enemy, your government. **Total Nigger Death. Total Fed Death. Total Politician Death.** If you cannot see what I mean, you are the prole or Spy that Orwell predicted.

Q&A For TND Enthusiasts:

- Q: "Erm I'm a based POC I hate gangsters and mumble (c)rap but I don't wanna die!!!1"

A: "Total Nigger Death", not "Partial Nigger Death".

- Q: "Why should I participate? I'm young and I have my whole life ahead of me."

A: There is no life left for young white people to live. You either throw away four years for a Bachelor's only to find out it's not worth the paper it's printed on and it hasn't been for over a decade, or you enter the workforce and wageslave until you can finally make it to a dead-end middle management position that pays just well enough to keep you able to distract yourself with disposable income. You will likely either die alone or with a spouse you despise. The worst part is, this is the best system we have; all we can do is try to improve it where we can. We can live peacefully through Total Nigger Death. We can live free of the chains on our necks through Total Politician Death. We can avenge those who tried before us through Total Fed Death. It is not the 19th century anymore. You cannot fuck off into the woods anymore. You cannot peacefully live off-the-grid and start a family in the tranquil solitude of virgin forests. You cannot, or you will get the Ruby Ridge Experience firsthand. Your only option is to fight. If we cannot live in peace, we must fight until we have peace. Your enemy grows stronger because you do not fight. **It's now or never.**

- Q: "I'm on board but I can't just die and dip because of family, busy establishing a RWDS, etc., how can I participate?"

A: Killing niggers doesn't have to involve going out in a blaze of glory, gunning down as many as you can in broad daylight before you run out of rounds and off yourself. You can kill niggers discreetly. Break into their homes at night and kill them while they sleep. Set up on a nearby vantage point and plink them with a scoped rifle like you're a faggot on top of Highrise in DMZ. Make ricin and slip it into a nigger's drink if the opportunity presents itself. Doxx your local nigger online or SWAT their address. There are many ways to perpetrate TND undetected but these spring to mind. Use your imagination. Have fun :)

- Q: "FED! FED! FED! YOU'RE A FED! GLOWIE! GLOW NIGGER! GLOW IN THE DARK NIGGER! CIA NIGGERS GLOW IN THE DARK! FED!"

A: You call this a psyop? My goyim in Moloch I spent less than 1k in gear and none of it is worth banning except i don't know, body armor maybe? (That's not a suggestion you gun-grabbing dog killers) Nigger lovers will spin this as a gun problem instead of a nigger problem but they do that when niggers kill

each other too. Someone had to kick the whole thing off and it might as well be me. Now get out there and kill someone already. Water the tree of liberty with the blood of tyrants. If you all partake in TND, TPD, and TFD, then writing new infringements will be the least of the Uniparty's problems.

>inb4 Poe's Law

No es un argumento.

- Q: "I want to LARP as the guy from Hatred too, tell me how."

A: It's not that guns make killing niggers easy, it's that niggers are easy to kill. I used guns because they get the most attention. Use bombs or chemicals if you want the most effective results. For instance: The Columbine kids killed something like less than 10 people (I didn't feel like Googling it) and they had proper automatic weapons. The Aum Shinrikyo cult killed over a hundred using nigger-rigged nerve gas cooked up in a basement like they were making meth. The OK City bomber (PBUH) killed almost 200 using a bomb made from ingredients you can buy at a hardware store. If you want to gun down niggers in the streets in this interim time where it isn't acceptable to do so, I recommend hopping yourself up on an extreme drug cocktail. Unless the autopsy reports prove that I did it wrong, I perpetrated TND under the influence of me secret formuler for diet meth (not Adderall, refer to schizo ramblings on my firearm for details) to focus on the thrill of the fight and not the act of killing (even slaughterhouse workers don't like having to kill animals, and when you're killing "people", it's even harder) and Valium to calm the nerves. If done correctly, this combination will make you enter temporary schizo mode to do what needs to be done. Sub whatever stim you have for real meth if available, but only Walter White grade stuff. You don't want a heart attack or a psychotic break mid-massacre.

Whatever extermination method you use, make sure to have an exit strategy. If you're present at the scene of the crime in the modern day, you WILL be caught eventually. Unless you want to spend the rest of your life getting AIDS from Jamal in cell block G, your only practical exit strategy is suicide. Get a handgun chambered in a high-caliber. I chose 10mm but chambers such as .40, .44, .45, etc. will do the trick. Turn gun upside-down, point barrel in mouth, aim up at brain stem, fire. Quick, easy, very little margin for error unlike .38 or 9mm, or other methods of peacing out. (Fun fact: suicides are considered gun violence in the eyes of the

law. Even including monkey business, suicide makes up the vast majority of gun violence.) If you can avoid detection (this is only possible with gas or bombs), you'll want to stick with Ol' Reliable: Grab kit, fuck off innawoods. You won't be dead, but you'll be living in fear of getting the Ruby Ridge Experience for the rest of your life. Drawing attention to our cause isn't easy, it is a suicide mission. Recall back to the beginning of this document: "I'll hold my tears and trade my years for a glimpse at Kingdom Come." If still in doubt, refer to the bottom of this document. We forfeit our lives so that our race may yet know peace. There is no greater honor, no cause more just, than ours.

- Q: "Imao weeb"

A: Watch GATE once and you'll feel the same way about Asian people.

- Q: "We need a rallying cry. What should our motto be?"

A: Repeat after me: "Kill niggers. Behead niggers. Curb stomp niggers.

Roundhouse kick niggers into the concrete. Slam-dunk nigger babies into nearby trash cans. Defecate in niggers' food. Kick niggers down flights of stairs. Blow up nigger apartments with C4. Launch niggers on a rocket into the sun. Hit niggers with cannonballs. Stir-fry niggers in a really big wok. Sacrifice niggers to active volcanoes to cause an eruption that destroys a nigger settlement below. Cram nigger corpses into one shallow grave. Piss in every nigger's gas tank. Throw niggers into wood-chippers. Twist nigger heads off. Doxx niggers. SWAT niggers. Report niggers to the IRS. Karate chop niggers in half right down the middle. Deep-fry niggers. Replace the floors in nigger houses with quicksand. Crush niggers in trash compactors. Liquefy niggers in vats of acid. Double-dip your chips at nigger functions. Eat niggers alive. Dissect niggers alive. Feed niggers to piranhas. Slice niggers in half with a laser beam that slowly moves towards them across a metal table. Stomp nigger skulls with steel-toed boots. Cremate niggers in ovens. Lobotomize niggers to see if there's a difference. Ban niggers from cities. Throw niggers off of rooftops. Crucify filthy niggers. Ave, true to H-Man. Our roads into NCR are paved with the corpses of niggers. Vaporize niggers with high-intensity lasers. Drop bombs on niggers from private planes. Pierce nigger skulls with power drills. Gun down niggers in the streets. Slice niggers in half with samurai swords. Chuck a throwing star at a nigger's head. Crush nigger skulls with sledgehammers. Blow nigger heads off with bolt-action rifles. Throw rocks wrapped in copper wire at power lines to cause blackouts in nigger cities. Atomize niggers with atomic weapons. Become Death, Destroyer of Niggers.

TND. TND. TND. TND." Hope this is good for a jumping-off point, feel free to add to this as needed.

- Q: "Recommend me a book."

A: You probably know all of the good ones (Siege, Mein Kampf, etc.) so pick out something fun like *Guns Of The South*. Go ahead; you deserve to read something fun every now and then, something that isn't just philosophy and doomposting. Read some Turtledove and ignore the fact that he's a nigger-lover. If you're ready for TND but not the SHTF that comes with it, read up on keeping that rifle well-maintained. Learn about sustainable innawoods living and write down a plan to put it to the test when the time comes. If you're ready for SHTF but not the TND that predates it, turn to the classics. Find things like *The Anarchist's Cookbook*, but make sure they actually work. Peruse through the trolling folder included if you have the Special Nigger-Skull-Collector's Edition (all files courtesy of a certain trolling expert and signal jamming enthusiast who knows who xe is). Learn how to kill. Learn how to blow shit up. Learn how to jam radio signals. Become Troll, Destroyer of Feds. TND is the fun part, SHTF is the boring part. Make sure you're well-versed in both if you want to make it to the relief and sovereignty that we long to see.

- Q: "Was this Q&A section a bitch to format?"

A: Yes.

List of things that could have prevented this:

- John Wilkes Booth waited 2 years for Lincoln to toss out all the niggers
- H-Man put down the panzerschokolade long enough to avoid igniting a war on 4 fronts.
- The Democrats blocked the Civil Rights Act (the only good idea to come out of the Democrat Party since the Whiskey Rebellion, led by Anti-Federalist aligned militias, ancestors of the Democrats who seceded from the Union 65 years later.)
- That precinct in Michigan didn't magically obtain 40,000 votes for Joe Biden one (1) second before the poll closed in the 2020 election (No, it wasn't a computer glitch. It was election fraud. Only the Kool-Aid drinkers who watch TV news think otherwise. Our elections are rigged, democracy has finally

died and the American Experiment has finally failed).

- The kikes at Central Maine Property Management didn't think that \$1,500 a month and a \$1,500 deposit plus utilities was a reasonable fee for a 1st floor studio apartment, miles from the nearest city.
- Valve got off their asses to give TF2 the No-Trannies-Allowed update (the summer update was mid and did not count).
- Burger King kept the 2 for \$5 deal with the chicken sandwich and the long cheeseburger.
- Bandai Namco made English translations for the Idolmaster franchise (Chihaya is best girl)

List of people and companies I feel like name-dropping:

- Madelyn Cantwell: The only person who to my knowledge may still possess the photo of me seig-heiling in a Shrek costume (my favorite picture of all time). She's a nigger-lover like you so just get the picture off her and leave her alone. The world needs to see it.
- A certain crystal enjoyer/kaffir hater: If you're reading this you know who you are (omg Bourt haiiii :3)
- Central Maine Property Management, Inc.: I had a chance at living in a White Man's utopia but like every White Man's utopia (((they))) ruined it >:((update: Maine is now pushing for niggers to immigrate. It's so freaking joever...)
- Home Depot, Inc.: I want their stock prices to drop so the dumb boomers working there lose money on their stock plans. In fact, fuck it. Sell all of your stocks. Crash the market. I want every dumb boomer to shit themselves when they see all they have left is the social security they'll lose when we take back our home.
- Dunkin Brands Group, Inc.: Cancelled the Kaiserccino, #1 reason why the West has fallen. Millions must die.
- Ronnie McNutt: What happens to those in my position who chose to go quietly into the night. I cannot say I blame the man for his choice, but he is a compelling argument for going out with a bang. For those who understand that their lives are over, that this world offers nothing for them, do not go

quietly into the night. Turn that gun on the ones who did this. Give this gay earth one last hurrah before you slip into the dark.

- Elliot Rodger: Supreme Gentleman™. Started the Beta Uprising. His only mistake was wanting to kill women instead of just taking away their right to vote. We'll be sipping vanilla frappes in Hell soon enough. *(Side note: I don't think women should be denied the right to vote. I just think they should be denied the right to vote on important things that require informed decision making like presidents and congressmen. The perfect compromise is to make a separate vote for women where they can vote on unimportant things like best K-Pop musician or tastiest pumpkin spice product. Women get to feel good about themselves and men get to live in a working democracy.)*
- Brenton Tarrant: Main inspiration for my methods (hope you MSM hacks like the schizoid ramblings on my gun :3) and targets. Tarrant took the fight to his invaders, and I will take the fight to mine. If you ever see this, Brenton, your vindication is finally here. The time you have predicted is fast approaching. (Also the fact that he forced New Zealand to use the word "Whakahaumanu" for an anti-terrorist operation is kinda heckin' silly :^P)
- Anders Breivik: One of the most successful cullers of towelheads and nigger-lovers to have ever lived, killing 8 with a fertilizer bomb (Columbine kids stay seething) and 69 more with nothing but a glizzy and a Mini-14 (on the top 10 gayest firearms of all time list but he still made it work). A true testament to the White Man's efficiency. Also saying in court under oath that MW2 helped your aim was funny.
- Timothy McVeigh (PBUH): Death, Destroyer Of Glowies. One man and an hour in a Home Depot garden section killed twice as many people as an organized cult and their gallons of nerve gas. The ultimate Aryan. Escaped prison right after finishing his 2 pints of mint chocolate chip ice cream through a portal to Agartha he opened by performing the Three Aryans ritual. He now lives on in our hearts. Ever wonder why the feds refused his request to have his execution televised? Few kno dis...
- Seung-Hui Cho: Proof that the Asian Man can kill just as well as the White Man. The only cool school shooter. Two peashooters, 33 killed including himself (See, suicides really are counted as gun violence). Made a black t-shirt and ball cap drip. Testament to Asian efficiency.
- Otoyo Yamaguchi: Kill commies. Behead commies. Karate chop commies in

half. Stab commies to death with a wakizashi.

- **Gaston Glock:** Inventor of the best handgun since the M1911 and the Browning HP. Anyone who doesn't like Glocks is a gay contrarian and it's 50/50 that they're a paid Taurus shill.
- **Wendigoon:** Perfect example of a good goy cuckservative. Cracks jokes about killing feds but either doesn't have the balls to name the ones sending the feds or plugs his fingers in his ears and screams "LALALA I CAN'T HEAR YOU" when faced with pattern recognition. The worst part is most right-leaning content creators are like this. None of them will do what is necessary. Their only purpose is to serve as the start of the White Man's wake-up call.
- **Boogaloo Boys:** Absolute faggots and larpers. Good goy cuckservatives just like Wendigoon. Have actively defended niggers from deserved violence in the past. Ruined Hawaiian shirts so now I have to make them cool again. Would be useful allies if they got off their asses and fought against something important. Make friends with them for the TFD and TPD portion of le boog, but don't hold your breath expecting any to show up. Any boog boys standing in the way of TND are not your friend. When the dust settles and we have achieved TND, TFD, and TPD, let a popular vote among men determine America's future politics.
- **Eminem (aka Marshall Matthers, aka Slim Shady, aka Ken Keniff, aka the white guy from D12):** Stared into the abyss (being niggardly) and the abyss stared back (becoming a nigger). Walks the edge of nigger-lover and honorary nigger. Fell off not because his new stuff sucked but because the lyrics were gay annoying liberal shit. ROE for Total Nigger Death is to include Eminem (aka Marshall Matthers, aka Slim Shady, aka Ken Keniff, aka the white guy from D12) as a valid target and he is to be killed on sight.
- **Colson Baker (aka Machine Gun Kelly):** Honorable nigger. To be killed on sight like Eminem because I didn't get a shot at him up in Ohio.
- **Justice Clarence Thomas:** Honorary White Man. The rare principled conservative, interprets laws based on the Constitution instead of doing faggy activist shit like the last half-century's worth of Supreme Court justices. Capable of solving a photorealistic and omni-dimensionally rotating Rubik's Cube in his head while his internal monologue narrates how he'd feel if he didn't have breakfast this morning. Cannot be voted out of office due

to being namedropped in here because he holds his position for life. The best argument against Total Nigger Death. I like him more than I like 90% of the Republican caucus. As the instigator of TND I hereby bestow unto him this Get-Out-Of-TND-Free Card:

Furthermore, all who perpetrate TND before it becomes mainstream hereby receive my permission to bestow a Get-Out-Of-TND-Free Card unto one minority of your choice. If you make a bad pick like Ski Mask or some other dumb nigger musician, your choice can be vetoed by anyone who ignores the aforementioned ticket upon presentation and kills the aforementioned dumb nigger regardless.

To the few niggers smart enough to read, I tell you this: your time is coming, and soon. I have killed many of you, and if I see you in Hell I will do so again. The White Man is coming for you. Take up arms. Kill us in the streets as we will do to you; **If you can.** Your days of holding this nation hostage are at an end. We will not stand for your animalistic behavior any longer. **This is your last chance to sober up. Act civilized, run away to your shithole jungles, or die like the dogs you are.**

I will not be taken alive. My actions are necessary, and yet I will be vilified. I will never see the fruits of my labor; but knowing this fruit may, indeed, bear is reward enough. Stand behind me. Follow my actions. Do as I have done and we as a society may just yet know peace once again. And above everything else: **Make this a White Boy Summer to remember.**

I finish these words I have composed with the words of others, closely related in the paper's context:

- "The only thing necessary for the triumph of evil is for good men to do

nothing."

- "Good men plant trees whose shade they may never sit in."
- "The best time to plant a tree was years ago; the second best time is today."

Wake up. The clock is ticking, and time is running out.
