There is one person I want to thank especially. That's Mark, former BO of 8ch /v/ and owner of vch.moe. His gracious donation of 0,1 bitcoin helped me a lot. He should be really pissed right now, of course. I wanted to kill only mudslimes and promised, I wouldn't name him. You know what? Fuck you, you filthy jew.

If this person even exist in RL. He could be a CIAnigger trying to radicalize and set up people online, for all that I know. I mean, why would a fucking jew give away money for free?
